MEGA BCAA'S

Branched-chain amino acids are essential in the diet of any serious athlete and leucine is the most important amino acid to promote protein synthesis stimulus.

Our **BCAAs 2.1.1.** are rich in isoleucine and valine, and are perfect for those individuals who need to include branched-chain amino acids in their diet without paying the high price of separate tablets.

BCAAs are necessary to maintain lean tissue, and studies reveal that they preserve the glycogen level (a form of stored carbohydrates that can be converted into energy) in the body's tissues.

BCAAs also prevent tissue from tearing during workouts, and they can therefore improve our muscle growth.

- **High Amino Acid Content**
- **Chewable tablet format**
- **Manufactured according to the highest European quality standards**
- **Increases muscle mass and post-workout recovery**
- **Prevents catabolism produced by high-intensity training**

Flavours: Chocolate, Strawberry.

Recommended use: Take 3 tablets half an hour before training, and 2 tablets after training. Do not exceed the recommended daily dose: 5 tablets.

BCAAs are amino acids that our bodies can't synthesise so we have to administer them to our bodies with supplements.

SUPER AMINO

Amino by Startec helps support energy, reduce fatigue during and after training, with no caffeine or sugar. You can enjoy a variety of flavours.

Startec gives your body the amino acids you need.

- **EXCLUSIVE FORMULA** - Thanks to an exclusive formulation we have been able to develop a supplement of unprecedented quality that satisfies all of the athlete's needs.
- **RAW MATERIAL OF THE BEST QUALITY** - We pay special attention when selecting our raw material to ensure that our products meet all the European quality standards.
- **MAXIMUM CAPACITY** - Our bottles are filled to the top. When protein weighs little and takes up a lot of volume, this is a clear sign that our product is of quality.
- **SPORTS PERFORMANCE** - Energy boost. Caffeine reduces physical and mental fatigue. Ideal for both aerobic and anaerobic Exercise

Flavours: Chocolate, Orange.

Recommended use: Take 3 tablets half an hour before training, and 2 tablets after training. Do not exceed the recommended daily dose: 5 tablets.

Amino acids are the 'building stones' the body uses to form its proteins.

AMINO ACIDS

TOP GLUTAMINE

Glutamine is a vital amino acid that is necessary for all of the body's tissues. It is the basic component for building proteins that help maintain cells healthy and repair tissues. It helps muscle recovery after training, increases strength and prevents catabolism. It is the most abundant amino acid in the human body which makes it the most important amino acid for gaining muscle mass. Our advanced formulation combined with Vitamin B6 contributes to the regulation of hormonal activity.

Recommended use: Take 2.5g (half a scoop) mixed with 200ml of water or juice and drink immediately, twice a day (half an hour before training and before bed). Do not exceed the recommended daily dose (5g).

Essential. Favours muscle building and, at the same time, counteracts muscle mass loss.

EXTRA ARGININE

Arginine is a semi-essential amino acid that is involved in numerous metabolic processes. It is essential in the treatment of heart disease because it reduces high blood pressure.

Arginine improves blood circulation, strengthens the immune system and has a positive effect on the male libido.

It stimulates the production of growth hormone, burns body fat and promotes post-workout recovery.

- Effective thermogenic
- Promotes fat burning
- Increases muscle mass and sports performance
- Vasodilator, improves circulation
- Natural and exclusive formula
- Formula natural y exclusiva

BLACK TRIBULUS contains tribulus terrestris extract, a herb that is well known in Ayurvedic medicine.

One of its active ingredients at a biochemical level are steroidal saponins.

These substances in plants have a molecular structure similar to testosterone. In the case of tribulus terrestris, it comes in a high concentration.

Tribulus terrestris increases and accelerates the synthesis reactions of new proteins, and therefore the creation of new body tissue. In other words, it favours anabolism.

- **HORMONAL LEVELS** - Optimises testosterone levels
- **NATURAL AFRODISIAC** - Stimulates libido in men and women
- **MUSCLE MASS GAIN** - Helps during the muscle growth phase
- **TESTOSTERONE** - Regulates sexual behaviour and helps sperm production

Recommended use: Take 1 capsule with a glass of water twice a day, before the main meals.

Do not take more than 2 capsules a day.

THE MOST FAMOUS natural anabolic.

This product has its own, unique formulation that includes the highest quality carbohydrates and proteins. Additionally, it is enriched with vitamins and minerals for increased energy.

It's the definitive product that will give you all the energy you need before starting your workout, and promotes optimum recovery thanks to its vitamins and minerals. Additionally, the high quality protein of the product advances muscle gain.

- **RAW MATERIAL OF THE BEST QUALITY** - We pay special attention when selecting our raw materials to ensure that our products meet all the European quality standards.
- **EXCLUSIVE FORMULA** - Thanks to an exclusive formulation we have been able to develop a supplement of unprecedented quality that satisfies all of the athlete's needs.
- **CARBOHYDRATES & PROTEIN** - Our mass gainer is composed of sugar-free carbohydrates and the best quality whey protein that will provide your body with everything it needs to continue growing.
- **INCREASES MUSCLE MASS** - Thanks to its exclusive composition, it will help you grow and develop your muscles. Specially designed for people who have trouble gaining weight.
- **RICH IN VITAMINS & MINERALS** - We have added vitamins and minerals to develop an ideal nutritional product, providing your body with everything it needs to develop optimally.

Flavours: Chocolate Mousse, Strawberry, Chocolate Cookie, Vanilla Cookie.

Recommended use: Mix 50g of powder (1 scoop) with 200ml of water.

Take twice a day.

Recommended daily dose: 100g (2 servings)

Provides an extra dose of calories quickly and efficiently so that your body gets all the essential macronutrients to build muscle mass.

Creatine is a suitable supplement for all types of athletes as it helps improve strength and power in general. Using this product is a quick and practical way to achieve maximum benefit since it increases your physical performance, especially in short and high-intensity exercise intervals. Around 95% of the body's creatine can be found in the skeletal muscle. It helps supply energy to all cells, especially muscle cells, by increasing the formation of adenosine triphosphate (ATP) which acts as a cellular energy reserve, also for muscle contractions.

- **TOP QUALITY INGREDIENTS** - This supplement has been manufactured using 100% Creatine Monohydrate.
- **IMPROVES PERFORMANCE** - Creatine helps improve athletic performance.
- **IMPROVES ENDURANCE** -Helps training by providing extra energy.

Recommended use: Mix 3g (one scoop) with 200ml of water or juice and drink immediately, 30 minutes before training.

BURNERS

L-CARNITINE

L-Carnitine transports fatty acids (lipids) to the mitochondria, which is responsible for the production of energy in the cells, where these fatty acids are converted into energy.

L-Carnitine favours fat burning when combined with physical activity and a balanced diet.

- **RAW MATERIAL OF THE BEST QUALITY** - We pay special attention when selecting our raw materials to ensure that our products meet all the European quality standards.
- **EXCLUSIVE FORMULA** - Thanks to an exclusive formulation we have been able to develop a supplement of unprecedented quality that satisfies all of the athlete's needs.
- **BURN FAT** - Thanks to its exclusive formula, this product increases the thermogenic capacity of the body and helps transport fat so that it can be used as the main source of energy.
- **SPORTS PERFORMANCE** - Energy boost. Caffeine reduces physical and mental fatigue. Perfect for both aerobic and anaerobic exercise

Burns fat, promotes physical performance, increases energy, improves oxygen absorption and strengthens the metabolism of proteins.

FATBURNER

FATBURNER is the perfect supplement that promotes fat burning thanks to our formulation and combination of L-Carnitine, Green Tea, Caffeine and other components that together with physical activity and a balanced diet will have a fat-burning effect.

By increasing the daily amount of calories burned, it helps reduce fat percentage.

This product is therefore the perfect fit when you are looking to lose weight.

- **REDUCES APPETITE** - The fatburner's synergistic action favours the reduction of fatty tissue.
- **INCREASES ENERGY** - Helps the body obtain part of the energy it uses from its fat deposits.
- **ACCELERATES METABOLISM** - Increases body temperature, metabolic rate and the amount of calories burned.
- **REGULATES SUGAR** - With insulin enhancers that metabolise sugar and insulin.
- **ELIMINATES EXCESS FLUIDS** - Includes ingredients with diuretic effects that favour the elimination of liquids.

Recommended use: Take 1 capsule with a glass of water twice a day, before the main meals.

Do not take more than 2 capsules a day.

The most effective supplement to help you to lose weight

| DOSIS DIARIA RECOMENDADA | | 2 CUCHILLOS | |

The exclusive formulation of our pre-workout product with vitamins B6, B3 and B1 will give you all the energy, strength, concentration and vascularisation necessary to do an intense workout.

The combination of its ingredients increases blood flow to the muscles that are being exercised.

As a result, there is a visible 'pump' which makes the muscles look and feel larger.

No other product comes with this amount of proven effective ingredients, which makes MASTER NITRIC OXIDE unique.

Flavours: Cola, Lemon.

Recommended use: Take 12g (2 scoops) mixed with 200ml of water or juice, half an hour before training.

*Increase your performance,
recharge your batteries and
LET'S WORK OUT!*
